Holistic Therapies

Hopi Ear Coning **45 minutes** **€50**

The benefits of ear candling are manifold. To begin with, ear candling helps remove debris that cotton swabs and other tools leave behind by encouraging ears to produce fresh, healthy wax while shedding old wax. In some cases, it may also help the body naturally eliminate toxic material that leads to earaches, chronic inflammation, and other ear discomfort. The gentle heat provided by the candle itself is great for soothing minor ear complaints like swimmer's ear or sinus pressure. Some ear candles are also infused with essential oils, which gives them therapeutic benefits in addition to their other effects.

Indian Head Massage **45 minutes** **€60**

Indian head massage is an ancient complementary therapy, based on the ayurvedic system of healing that has been practiced in India over for over a thousand years. An Indian head massage stimulates blood flow, lymph and oxygen in your upper body, and therefore **may relieve sinusitis, relieve stress and help you sleep better**. And because it is said to help cure headaches (even migraine), eye strain and anxiety, some say an Indian head massage can help you to concentrate better at work.
